

ENVIRONMENT POLICY

BON Electrics Pty Ltd recognises the importance of protecting the environment for the benefit of our clients, employees, shareholders and the community. Our commitment is to deliver our projects in an environmentally responsible manner.

The Senior Management Team will also support other relevant management roles to demonstrate their leadership as it applies to their area of responsibility. Senior management will also ensure the integration of the environmental management system into the organisations business processes and promote the use of a process approach and risk-based thinking.

BON Electrics Pty Ltd maintains processes and systems appropriate to our area of operations with the objective of providing the framework and platform to:

- Recycle as much of our waste material as possible across the company.
- Receive no environmental breaches.
- Maintain an Environmental Management System compliant with ISO14001:2015.
- Ensure sustainability through the effective and efficient use of resources.

In meeting these objectives, BON Electrics Pty Ltd will manage and maintain an environmental management system based on ISO14001:2015, where we will:

- Conducting regular environmental inspections and audits of our operations to ensure waste and pollution are prevented or minimised.
- Complying with all relevant environmental legislation, regulations, codes of practice and contractual conditions.
- Continually monitor and improve our environmental management system via robust auditing and performance monitoring reviews.
- Provide workers with necessary resources, information, instruction, training, and supervision to ensure their understanding and compliance with our Environmental Policy.
